

Agenda point 2 Harvesting

The following points are to be spoken about in groups

Branding issue / production Bert
no or short discussion

Bottom up process: cultural village seen as a bottom up process
short discussion

Know your recourses.

Call your children when you need their professional skills
(could be part of the end conclusion , a part of the youth paragraph)

Volunteers

Vitality of a village depends on volunteers. What is the tension between volunteers of the village and the professionals on the higher levels? How to come to a creative cooperation?

List of advantages of living in a small community

Elderly:

1. Perhaps: short film impression of the meeting of the elderly in Wijk ana Zee in June.
2. decision about the schedule of the international meetings of the elderly about change project.

In June we had our first meeting between elderly of Killingi Nomme and Wijk aan Zee. On the 8th of June 13 elderly came to Wijk aan Zee accompanied by one younger person Kätlin who was able to translate Estonian into English. At the end of the meeting Kätlin told me that the encounter with the elderly for her had been like the discovery of a treasure. That it had been unusual and rich for her. I was touched because I had the same feeling when I was young and came into contact with elderly in the same way. And the meeting between the elderly of Killingi an Wijk aan Zee I experienced as one of the best meetings in the context of Cultural Village. I am really looking forward for the next meeting. On the autumn conference in Tommerup we definitely should point out the dates for the next meetings. (Bert Kisjes)

Local economy

Information and discussion about the Work in the village project.
What has been done in Ströbeck, Kirchheim and Wijk aan Zee.

Website: next to the webmaster an editor

Webshop: proposal to make a webshop for the cultural villages.

(Solar)energy

Discussion about our possibilities for developing solar energy for far remote areas.
The object of Tommerup this year is CO2 and the use of energy. In the April-meeting came the idea of solar energy for far remote areas. No cables and useful for small users.

Facebook:

Should we make one? And who wants to do it?

Materials to make after 12 years Cultural Village

What kind of documentation we have to make:

1. Closing document
2. A list and short description of events that happened in these 12 years
3. 2 photo's of all of these events on cd Rom
4. a collection of all products, books, leaflets, films, exhibitions and texts.
5. film of the youth about their ideas of the future in villages

Dissemination in 2011

In Brussels: performance
